

Interested in **Science, Technology, Engineering, or Math?**
Want to explore **sustainability, energy, and climate change?**

Exelon Foundation STEM Academy

Sunday, June 21 – Friday, June 26, 2026
at DePaul University
Chicago, IL

Explore. Innovate. Lead.

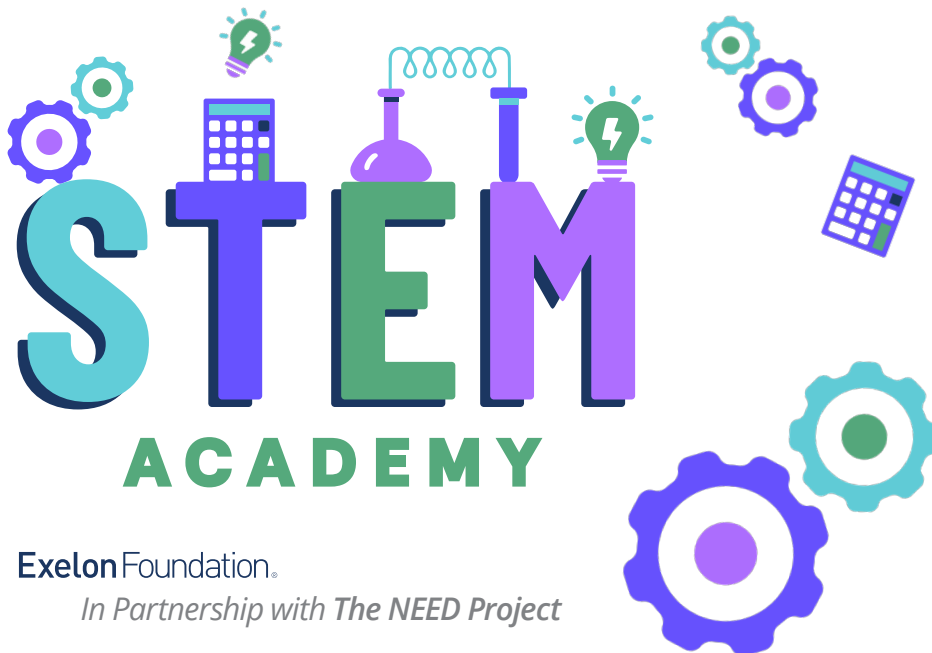

Open to current 10th & 11th graders.

Step into the future of energy and sustainability at the **Exelon Foundation STEM Academy**—a free, week-long, residential program designed for young women who want to spark change.

At DePaul University, you'll:

- Dive into hands-on activities and interactive field trips
- Connect with inspiring leaders in STEM and energy industry careers
- Collaborate with peers on real-world energy solutions
- Compete in an exciting energy challenge with prizes

Along the way, you'll strengthen your leadership skills, gain confidence, and discover how your ideas can help power a more sustainable world. Plus, every participant receives an iPad to use during the program—and keep afterwards!

Exelon Foundation.

In Partnership with The NEED Project

“The STEM Academy was a great experience that created so many opportunities for me. I feel immensely prepared for the future and excited to explore all the fields talked about this week.”
